

VLGA Leading

Network and share information about 'hot topics' affecting your local government and communities.

Our July Leading Edge Forum (LEF) on Thursday 1 July will be an interactive opportunity to network, let members have

their say and influence the agenda of the day! There will be opportunities for members to raise topics that are hot for you, including some issues we know are on the horizon including:

- * Issues affecting councillors – WorkCover and conflict of interest
- * Issues affecting the wider sector – regulatory burden and financial sustainability
- * Issues affecting the wider community – state and federal elections

VLGA Delegates are strongly encouraged to attend to provide feedback from your member local government.
