

The Future We Must Plan For

Forum Round Table

Date: Friday 4 December 2020

Time: 1.30 - 4.30pm

Venue: Virtual

Supported by the Royal Society of Victoria

INTRODUCTION

The global environment is changing rapidly. This can be seen very clearly in the natural environment in the form of resource depletion, environmental degradation, pollution and species loss as well as climate change and global warming.

These changes are all measurable and present profound challenges for the way societies live and the values, principles and structures that support them including the economic system and functioning of institutions and government.

Governments need to plan for the future but the starting point must be a realistic understanding of the scale and dimensions of these changes, what is driving them and their likely impacts. This will be the subject of this forum.

This subject has profound implications for societies throughout the world. It will be of critical interest to policy and decision makers in business and all levels of government as well as the broader community.

PROGRAM

1.30pm Welcome, Opening Address

Session One

The changing world around us—the evidence and implications

Professor David Karoly

Climate change—a brief history, recent developments and projections for the future

Professor Will Steffen

Global change, trends, tipping points and likely outcomes

Professor Robyn Eckersley

Where to from here—the politics of change

Session Two

Summary of key issues, panel discussion, resolutions, questions from the audience

Adam Bandt (Mp) to Join speakers in panel discussion

Closing address

Close 5.00

David Karoly is Leader of the Earth Systems and Climate Change Hub in the Australian Government's National Environmental Science Program, based in CSIRO. He is also an honorary Professor at the University of Melbourne. He is an internationally recognised expert on climate change and climate variability.

Professor Karoly was a member of the National Climate Science Advisory Committee which delivered its final report "Climate Science for Australia's Future" in 2019. During 2012-2017, he was a member of the Climate Change Authority, which provides advice to the Australian government on responding to climate change, including targets for reducing greenhouse gas emissions. He has been involved in the Assessment Reports of the Inter-governmental Panel on Climate Change in 2001, 2007, 2014 and 2021 in several different roles. He was elected as a Fellow of the Australian Academy of Science in 2019 and was awarded the 2015 Royal Society of Victoria Medal for Scientific Excellence in Earth Sciences

Will Steffen is an Earth System scientist. He is a Councillor on the publicly-funded Climate Council of Australia that delivers independent expert information about climate change, an Emeritus Professor at the Australian National University (ANU); Canberra, a Senior Fellow at the Stockholm Resilience Centre, Sweden; and a Fellow at the Beijer Institute of Ecological Economics, Stockholm. He is the chair of the jury for the Volvo Environment Prize; a member of the International Advisory Board for the Centre for Collective Action Research, Gothenburg University, Sweden; and a member of the Anthropocene Working Group of the Sub-committee on Quaternary Stratigraphy.

From 1998 to mid-2004, Steffen was Executive Director of the International Geosphere-Biosphere Program based in Stockholm. His research interests span a broad range within climate and Earth System science, with an emphasis on incorporation of human processes in Earth System modelling and analysis; and on sustainability and climate change.

Robyn Eckersley is a Professor of Political Science at the University of Melbourne. She has published widely in the fields of environmental politics, political theory and international relations, with a special focus on the ethics, politics and governance of climate change. She is a Fellow of the Academy of the Social Sciences in Australia (since 2007) and she received a Distinguished Scholar Award by the Environmental Studies Section of the International Studies Association in 2019.

Panel Members

Adam Bandt MP

Sally Capp Lord Mayor City of Melbourne

Chair Roger Taylor , Chair Transport for Melbourne

Booking

**This forum round table will be conducted via YouTube
This event is free however registration is necessary.
